THE VOLCANO.-By the following letter from Sheriff Coney, of Hilo, written on the 18th Instant, we have a brief account of the volcanic movements on Hawaii. The volcano is slumbering, but restless enough to show that another eruption of lava may occur before quiet is restored to the mountain. Mr. Richardson is an acurate observer, and we

FIRE DEPARTMENT ELECTION.-On Monday next, June 1st, the annual election for Chief Engineer and two Assistants will take place at the house of Mechanic Engine Company No. 2. The polls open at 7 o'clock and close at 9. There being two nominations for Assistants, a close vote is anticipated.

CONCERT ON PRIDAY NIGHT.—A Concert H. Heistein, Esq., of a sen. will be given at Kaumakapili Church on Friday evening next the 29th inst., by the choir of Fort Street Church, assisted by a few amateurs. If the preceeding concerts given by them are any criterion, we can vouch that the performance will be worth attending. The object is to raise funds for their new organ which is now being built. We bespeak for them a full house. The programme in another column, gives the music which will be rendered.

New MEMBER. -- On Thursday last, Hon. A. F. Judd presented his certificate from South Kona, as having been duly elected represen tative for that district, at the election ordered to be holden there by the Assembly. The new member, upon the report of the Committee on Elections, was sworn in and took his seat. The returns show that Mr. Judd was elected by a handsome majority of 49 votes over Kapahukula, the candidate next on the poil. The Assembly have yet before them the most important measures of the session, and more than thirty bills are on the table awaiting their action. There appears to be a desire to shorten the session as far as possible, but progress is necessarily slow.

OUTSIDE ARTICLES -We call the attention of our readers to the masterly article on European politics from our correspondent E. H. Phases of political action succeed each other so rapidly, and the telegrams come on so far in advance of the mails, that we are apt to regard the details and fuller intelligence received by the latter, as hardly worthy of the close attention which is necessary to a full understanding of current events. Our correspondent gives a connected and clear account, which will amply repay a perusal of his letter.

tion of France in the Roman question, that Rattazzi, the Italian minister, informed the Emperor, as early as Sept. 30th, that in the event of a republican rising at Rome the King of Italy would intervene; that on the 13th of October, he telegraphed, that in his opinion, matters had arrived at such a pass as to necessitate an occupation of Rome by the Italian troops. The Emperor recognized the sincerity of the Italian government in its efforts to abide by the articles of the September Convention, and though warning them that France would be compelled to take measures also in the matter, was evidently unwilling to undertake another intervention by causing a question to be asked, "if the Italian troops, after putting down the lusur rection in Rome, will return to their position on the frontier," and also, "if Italy would agree to a congress on the Roman question." A negative reply to both these propositions decided the cabinet at St. Cloud to order the advance of the French troops from Toulon.

In the Legislative proceedings, on the 4th page, will be found the very able reports of the Sanitary Committee and that of the Committee on Commerce on the subsidy. The sanitary report approves of all the measures adopted for the extinction of leprosy, and urges upon the Assembly the further prose cution of this work as a solemn duty to the nation, to be done with as much kindness to the unfortunate as the imperative pecessity of depriving them of personal liberty will allow. They recommend an appropriation of \$40,000. The report on the subsidy has been drawn up with much care, after a week spent in hearing arguments and eliciting opinions from all parties interested, by the Committee. They recommend a subsidy to the Kilauca, but an indefinite postponement of the subsidy item for the ocean steamer.

QUEEN VICTORIA'S BIRTH DAY.-The birth the late Eruption, to be given some time day of her Britannic mayor, the late Eruption of the lecturers. served on the following day, Monday, by the British Commissioner, and H. M.'s ship Reindeer, now in port. The ship was handsomely dressed, and there was the usual recognition of the day ashore and affoat, by the display of bunting at the Government House, and the various Diplomatic and Consular offices. The flag-staff at the residence of the British nissioner was prettily dressed with flags, beside floating the national flag at its head. At noon, the Commissioner received at his numerous calls from British residents and others, made in honor of the day. A large and brilliant party given by the Commission er and Mrs. Wodehouse, at their residence, closed the day, with music and dancing, The arrangements and decorations for the ball was most tastefully gotten up, and the numerous guests seemed to enjoy heartily,the festivities of the evening. The rooms were hung with evergreen wreathes, sent by Her Majesty Queen Emma, and elegant bouquets of flowers, adorned the apartments, as well as set off, the richly spread supper table to which the guests adjourned at twelve o'clock. Three upper windows, held transparencies showing in connection V, a crown and R. The effect of the numerous lights and variously colored lanterns hung in the verandshs was very pretty. His Majesty's Ministers were present, the Acting U. S. Minister, H. I. M.'s Commissioner and Chan cellier, Capt. Nares and officers of the Rein deer, the officers of the U. S. S. Mohango, the members of the Consular Corps, and many of our British and other residents.

In the House of Lords the statement was made by the Ministry similar in tenor to that in the House of Commons.

Bratiff, April 26th —It is officially announced that the reduction in the Pressian army will be 12,000.

Madrid, April 24 —Following is the new Cabinet: Branbo Murrillio, President: Vice

Madrid, April 24.—Following is the new Cabinet: Branbo Murrillo, President; Vice Droased, Minister of Interior; Runcali, Minister of Justice and Foreign Affairs; Magraidi, Minister of War; Arabla, Minister to France; Cateslana, Minister of Public Works; Martoni, Minister for the Colonies.

Madrid, April 24.—Beldar is appointed Minister of War; Concha, Marshal of Camp. The policy of the new Ministry will be identical with the former one.

Burlin, April 25.—Bismarck says officially, the loss of the bill relative to the Federal debt, which was withdrawn from Parliament on account of the disposition on the part of the Liberal members to amend it, will put an end to building ships and fortifications. The reduction of the Prassian army to a peace footing will begin May 1st.

It is related that when Commodore Biddle was paying a visit to a Japanese Jank in Yeddo bay in 1846, a sentry pushed him back into his gig, as he was climbing over the bulwarks. The Commodore's official wrath was kindled; he returned to his ship and sent a percuptory demand for the insult. The reply was returned as speedily as the circumstances would admit, that the sentry had acted without orders, but that his head, which had already been cut off, was at the service of the Commodore.

DALY—Ross—In Rochester, N. Y., March Eith, by Rev. D. K. Bartlett, assisted by Rev. John Wickes, Rev. James A. Daly, of Stockton, Cul., to Miss Char-lette S. Bloss, of Kochester.

In Boston, Mass., April 5th, Hon. Frederick H Allen, brother of Chief Justice Allen, and father of Samuel C. Allen, Eq.
